REQUIREMENTS FOR THE DESIGN OF PUBLICATIONS

From one author, no more than two articles written alone or in co-authorship are accepted for consideration. Submitted materials for publication should not be published and presented at conferences held earlier, and also should not be under consideration in the editorial offices of other collections. The decision to publish or reject an article is made by the organizing committee or the editorial board. Appeals against decisions are not accepted and are not considered. The authors are responsible for the content of their articles and the fact of their publication. The organizers are not responsible to the authors for possible damage caused by the publication of their articles. The opinion of the author of the article on a particular issue may not coincide with the point of view of the editorial board of the collection.

The volume of materials is 4-6 pages. A4 page format, font – Times New Roman, size – 14, line spacing – 1, margins: left, right, top and bottom – 20 mm. Paragraph indentation – 1.25 cm. The text should not contain footnotes. Scanned tables are not allowed. References to literary sources (no more than 20) are placed in the text in square brackets using Arabic numerals, are drawn up according to the requirements of the Higher Attestation Commission of the Republic of Belarus <https://www.vak.gov.by/bibliographicDescription>.

Mandatory sections of a scientific publication:

The abstract (in Russian and English) should clearly state the content of the article and be suitable for publication separately from the main text of the article.

Keywords, no more than 7 (in Russian and English).

Main text:

Introduction... Relevance... The purpose of the study... Methodology and organization of the study ... The results of the study and their discussion... Conclusions... Literature...

Sample design in Russian and English:
